

Este tejido combina impermeabilidad y apariencia textil en un solo producto, con un aspecto decorativo y visual muy elegante.

Es 100% impermeable translúcido, de fibra acrílica tintada en masa, con reverso de PVC mate símil cuero.

La parte acrílica cuenta con el tratamiento especial "Infinity" para toldos, que repele el agua y la suciedad, generando una barrera anti-manchas y anti-moho. Lacara PVC dispone de un acabado especial que aporta gran resistencia a la suciedad.

Especialmente diseñado para la confección de toldos, pérgolas y cubriciones textiles.

This fabric combines waterproofing and a textile appearance in a single product, making this a multi-functional fabric with a stylish decorative visual appeal.

It is 100% waterproof translucent fabric, made of solution dyed acrylic fibre with matt faux-leather PVC underside that.

The acrylic part features the special "Infinity" treatment for awnings that repels water and dirt, creating a barrier against staining and mildew. The PVC side features a special finish that delivers excellent dirt resistance

Epecially designed for the production of awnings, pergolas, and textile canopies.
